

Design and Build the
Business You want

Workshop 1:

The 1- Page business plan

Or: Business Plans that work and work and work...

An exciting workshop/ seminar for business owners who want to lay the foundation of the next stage of their business growth

You will walk away from this workshop with a 1 page Business Plan that will have a lasting impact on your business and will allow you to create sustainable growth in your business.

We will explore:

- Why a "living" business plan is critical for a thriving growing business
- How to ensure the Plan is "alive" and kept "alive"
- How to ensure that the Plan doesn't live in the bottom of a filing cabinet, as so many business plans do.
- What the connection is between your personal values and passions and your business.

Who should attend

- Business owners who feel it is time to put their business on a new footing, and to step up to the next level.

Clearly Business and the Bondi Chamber of Commerce are pleased to host this exciting series of workshops, presented by Roland Hanekroot of New Perspectives Business Coaching and Adam Treharne of the Business Arkitek.

The 1-page business development programme has been developed by Roland Hanekroot and Adam Treharne in conjunction with business development experts from the NSW Business Chamber.

This is the third workshop in the series. This series of workshops is a must for small business owners who really want to create sustainable business growth.

Detailed information on this workshop and others in the series is available at:
